

ANTALYA BİLİM UNIVERSITY

Civil Engineering Faculty Positions at Antalya Bilim University

Antalya Bilim University (ABU) in Turkey invites applications for multiple faculty positions in all areas of civil engineering. Priority will be given to the candidates in areas of **structural engineering and geotechnical engineering**. The positions are anticipated to be filled at the lecturer, assistant professor rank, however, appointments at associate and full professor levels might be considered as well.

The targeted start date for the positions is September 1, 2017. Applications from women, minorities, and non-Turkish citizens are also encouraged. The successful candidates will be expected to teach undergraduate courses in the **structural engineering and geotechnical engineering** fields of civil engineering, develop sponsored research programs, advise and mentor students at the undergraduate and the graduate levels, collaborate with other faculty in multidisciplinary research, interact and participate in outreach activities, and be involved in service to the institute and the profession. The successful applicant must have earned a Ph.D. degree in civil engineering or a closely related field, and should have an excellent command of English. Applicants must have evidence of scholarship/research and record of external funding for research for consideration of appointment at the associate or full professor level.

Antalya Bilim University (ABU) is a private institution in Antalya, Turkey. The medium of instruction is English. ABU has established an international education services office and is rigorously enrolling international students with an objective to have 50% of the incoming freshmen being internationals in the next five years. ABU is an equal opportunity employer. Salary is very competitive and commensurate to rank, experience and qualifications. Several fringe benefits (relocation package, medical health insurance, retirement benefits) will apply. Housing assistance may be provided for some candidates.

Antalya is a city awash in seemingly every shade of blue and green. A global city with direct flights to various points all over the world. One of the fastest growing cities in Turkey with a population over 2 million. Antalya is the eleventh most visited city in the world.

Applicants should submit a cover letter, curriculum vitae, including academic and professional experience, list of publications, statement of teaching philosophy and research interests/objectives, and contact information for at least three references as a single PDF file to cive_recruit@antalya.edu.tr. Please format the file name as *Last_Name_Civil Engineering* and include "Civil Engineering Faculty Search" in the subject line of the email. Short-listed candidates will be informed for formal interviews with one hour of teaching session online.

Review of applications will begin immediately and continue until the positions are filled. For further information about Antalya Bilim University (ABU), please visit:
